THE BEST MONEY IDEAS OF 2019

Free, Unbiased Advice and 100+ Stock, Fund, and ETF Picks Direct From the Pros!

Register to Attend Free at www.OrlandoMoneyShow.com or Call 800-970-4355!
Dear Fellow Investors:

According to the Presidential Election Cycle, the stock market performs better than average in the third year of a President’s term of office. But should we bet on that historical pattern in 2019—given that the stock market has already been on a tear for over nine years and is now the longest bull market in history?

At The MoneyShow Orlando, the largest gathering of Wall Street’s most experienced and insightful experts will explore the best ways to pick your way profitably through the perils and possibilities in today’s markets and distill where the true investment opportunities lie.

Be sure to attend the FREE special events available to all attendees such as The All-Stars of Options Trading, Women on Wealth (for women only), The World of ETF Investing, Income & Growth Summit, and many more. Whether you’re an investor, trader, or both—there are more than 250+ sessions designed just for you!

Visit the interactive Exhibit Hall featuring over 100 investment- and trading-related products and services from the top firms in the world. Check out the latest high-tech trading software, find out about cutting-edge service providers and brokers, and hear exciting corporate presentations from leading public companies. And don’t miss the ice cream social, popcorn-and-lemonade, and networking receptions in the interactive Exhibit Hall!

For those who want even more in-depth knowledge in a more personal setting, where our experts do a deep dive on particular subjects and take extra time to answer your questions, our Master Classes and Diamond VIP Members have full access to all Master Classes at all MoneyShow events, (Gold members receive discounts), in addition to receiving other valuable member benefits at the show and throughout the year. Ask us how you, too, can become a VIP!

We’re committed to bringing together the best minds in the financial industry to deliver a program that is unparalleled in allowing you, the long-term investor or active trader, to meet face to face with the renowned money experts you’ve seen on television and read about in top financial publications. Our goal is to empower you with the in-depth education and specific, expert advice required to manage your assets safely, confidently, and profitably in the any market environment.

To your financial success,

NAVIGATE MARKET VOLATILITY
WITH CONFIDENCE AND INCREASE
YOUR PROFITS IN 2019

WOMEN ON WEALTH

Thursday, February 7 • 8:00 am – 12:45 pm
Contrary to popular misconception, women investors aren’t less confident or more risk-averse than their male counterparts—in fact, women typically beat men’s portfolio returns in the long run!

Designed to help women address the unique challenges and opportunities they face in building a strong financial foundation for themselves and their families, our Women on Wealth program will show you what areas of the market offer the best growth potential in the year ahead—and what sectors women investors should be especially wary of.

HOW TO INVEST IN THE BEST CRYPTOCURRENCIES WITH THE LEAST RISK

Martin Weiss
The new world of cryptocurrencies has delivered astonishing profits to investors and holds great promise for the future. But it suffers from great volatility, lax standards, murky operators, marketing hype, and periodic market crashes. It desperately needs the clarity that only robust, impartial ratings can provide.

That is where Martin Weiss has stepped in. His firm, Weiss Ratings, is the only financial rating agency in the world that issues grades on cryptocurrencies and the only one that warned investors about the 2018 crash in Bitcoin. At this gala three-hour event, the Weiss team will give you:
• A quick crash course on how and when to buy cryptos without hassles
• The names of cryptos you shouldn’t touch with a ten-foot pole
• The names and specific instructions on which cryptos can give you the best upside potential with the least downside risk, plus...
• Answers to all your questions about this extremely high-profit, volatile new world

**SUCCESSFUL INVESTING IN THE “UBER BUBBLE” AGE**

**MIKE LARSON**
Senior Analyst, Weiss Ratings

The “Uber Bubble” is all around us. Fueled by the biggest infusion of easy money the world has ever seen, valuations on many stock, bond, and real estate investments have surged to dizzying heights. All kinds of esoteric assets like artwork, baseball cards, and even NFL teams, have gotten swept up, too. So, what are the implications of this trend? Is a painful bust inevitable? How can you profit and protect your wealth regardless? Weiss Ratings senior analyst Mike Larson will share all the answers—and his favorite investments for 2019 and beyond—at this session.

**GOALS-BASED INVESTING: AN OVERVIEW**

**JACK ABLIN**
Founding Partner & CIO
Cresset Wealth Advisors

To most savers, money is a means to an end. Yet the shift from defined-benefit pensions to self-directed 401(k) programs thrust Americans head first into the investment markets. Nowadays, the process of saving and investing is equivalent to shopping at a complex financial grocery store. A better approach is goals-based investing. By matching investment time horizons with an investor’s cash flow needs, goals-based investing insulates your emotions and lifestyles from the vagaries of the market. This approach sets the goals as the objectives and works backward to build an optimal portfolio allocation for each of them.

**MY MOST SUCCESSFUL MARKET-BEATING STRATEGY: FIVE STOCKS AND FUNDS TO BUY NOW**

**MARK SKOUSEN**
Editor, Forecasts & Strategies

Dr. Mark Skousen, editor of the award-winning newsletter Forecasts & Strategies, has seen it all—economic boom and bust, bull markets and bear markets, strategies that work and don’t work—over his 40 years’ experience on Wall Street. In this timely session, he reveals his most successful formula for beating the market, with five specific recommendations that will grow your portfolio without taking unnecessary risks.

**DRUG DEVELOPMENT: THREADING OUR WAY THROUGH THE Labyrinth**

**JOHN VANDERMOSTEN**
Sr. Biotechnology Research Analyst, Zacks Investment Research

The drug development process is a wide-ranging and expensive effort that is required before any pharmaceutical product may be marketed or sold. The process varies slightly by geography, but maintains some common features for all regulatory regimes, which uniformly emphasize testing for safety and efficacy. John Vandermosten will provide an outline of the drug development process with information that can guide you in assessing value for pharmaceutical products as they move from early clinical studies to eventual approval.

**INVESTOR PORTFOLIO ALIGNMENT IN A MAYTAG MARKET**

**GENE INGER**
Editor, The Inger Letter

Last year Gene Inger forewarned of distribution under cover of a strong Dow and S&P masking rotational selling by insiders and “smart money.” In Florida this winter, he will address the impact of the technical factors, mid-term elections, monetary policy, China trade, geopolitics, and other variables behind the roller-coaster outlined last year and tactics anticipated in the year ahead. How investors should massage their portfolio strategies going forward will be outlined in a spirited open-forum style presentation, where Gene invites your active participation.

**CRISIS AND OPPORTUNITY IN 2019: AN ELLIOTT WAVE OVERVIEW OF THE MARKETS**

**STEVE HOCHBERG**
Chief Market Analyst
Elliott Wave International

Wide market swings in 2018 have left many investors wondering what’s in store for 2019. Steven Hochberg is a close associate of Robert Prechter and recognized as one of the world’s foremost experts on the Wave Principle and its application to market forecasting. Come find out what Elliott Wave International thinks about the coming year and the very best places to invest.

**STOCKS & MARKETS**

**The MONEY, METALS, & MINING Symposium™**

**Saturday, February 9 • 8:00 am – 6:00 pm**

Every investor is looking for opportunities to buy low and sell high. In this special full-day track, you’ll hear from metals and mining experts who will show you why the junior mining industry is showing signs of recovery, the specific companies that are poised for growth, and how you can capitalize on the opportunities. You’ll also learn which metals will outperform the market in 2019, why, and how to purchase them for your portfolio.
FINDING ATTRACTIVE LONG-TERM INVESTMENTS WITH A CONTRARIAN APPROACH
BRUCE KASER
Associate Editor, The Turnaround Letter
Buying out-of-favor stocks supported by deep fundamental analysis is becoming a lost art. This presentation will show you the tools and methods used by New Generation Research/The Turnaround Letter for finding stocks that can produce outsized returns.

CASHING IN ON DEMOGRAPHIC TRENDS
NANCY ZAMBELL
Editor, Wall Street’s Best Investments and Wall Street’s Best Dividend Stocks
Nancy Zambell honed her investment analysis skills and made a name for herself as a securities analyst in the brokerage industry and a creator/editor of several investment newsletters. In this session, you’ll find out how the Gen-Xers and Gen Y/Millennials spend money differently than the Baby Boomers. She will also share which demographic trends are driving certain sectors to new highs.

BONDS: NAVIGATING THROUGH RISING RATES AND LATE CYCLE MARKET DYNAMICS
BENJAMIN DOTY
Senior Investment Director
Koss Olinger & Company
The US bond market is twice the size of the US stock market, but bonds are often the dark horse of investing. They can be boring, but also bold and beautiful. We will explore what role bonds can play in an investment plan, and how opportunities may rise and fall in the current economic and interest rate environment.

INVESTMENT OUTLOOK FROM ARGUS RESEARCH, INCLUDING FAVORITE STOCK, ETF, AND OPTIONS PICKS
STEPHEN BIGGAR
Director, Product Strategy

THE CANNABIS INVESTING EVENT
Thursday, February 7 • 9:00 am – 12:45 pm
Canada became the first G7 country to legalize recreational marijuana use, and the cannabis industry continues to be one of the hottest places for investors. From Canada to California, recreational marijuana is becoming a significant opportunity, as well as a major catalyst for companies levered to it.

The Cannabis Investing Event will provide you with the opportunity to learn about this high-growth sector as you hear from a roster of company executives who are focused on specific sub-sectors, elite analysts who cover this rapidly developing industry, and advocates who are leading the cannabis legalization movement all over the world.

HOW TO MAKE MONEY IN BOTH BULL AND BEAR MARKETS!
MIKE TURNER
President, Turner Capital Investments, LLC
You have been told that the only way to make serious money in both bull and bear markets is to buy penny stocks or trade high-risk options. The problem is, many investors just do not want to take on that kind of risk. Attend this session and let Mike Turner show you how to ALWAYS be on the right side of the market so that you can be in the right stocks and ETFs at the right time in both bull and bear markets.

TECH QUADRUPLE PLAY: HOW TO PROFIT NOW FROM ROBOTICS, AUTONOMOUS CARS, AI, AND THE CLOUD
JON MARKMAN
Editor, Tech Trend Trader
The most compelling changes in the way we live, work, and play over the next 20 years will stem from the pervasive influence of artificial intelligence. We will interact with increasingly human-like machines on the job and at home, be ferried around in self-driving cars and self-flying taxis, and all industrial, medical, industrial, and political knowledge and entertainment will be accessible from centralized data centers known collectively as “the cloud.” In this workshop, you will learn about the seven unique public companies whose shares have the most to gain from these stunning developments.

TECH THAT’S RIPE FOR INNOVATION
BAMBI FRANCISCO
Founder, Vator.tv
Healthcare and real estate tech are industries poised for significant innovation and disruption. Healthcare accounts for 18% of GDP while real estate accounts for 13% of GDP. Much like the commerce/media wave transformed those industries starting circa late ’90s/2000, healthcare and real estate will see great changes in the next two decades. Additionally, we’re seeing more money moving into the private sector. In fact, private markets are where public markets were circa 1980. Learn where to invest in healthtech and real estate and why more money is investing in private startups.

THE ROLE OF UTILITY STOCKS IN A DIVERSIFIED PORTFOLIO
THOMAS GRIMES
Institutional Sales
Reaves Asset Management
Reaves Asset Management has been researching and investing in the utilities sector for more than 40 years. In this presentation, Thomas Reaves will discuss the beneficial impacts to a portfolio from adding exposure to utilities, which will increase the level of recurring income and decrease volatility. In addition, he will point out the most common misperceptions about utilities and the potential growth opportunities in certain segments of the utilities sector.

“...This was my first show. It was very informative, and I was exposed to many different investing ideas. [...]”
S. MIYAKAWA | Lewisville, TX
Continuing volatility presents many challenges; learn to formulate the right action plan for your portfolio no matter where the markets head in the year ahead. Don’t miss the insights, strategies, and specific recommendations that can turn investment potential into profitable success!

**ALTERNATIVE INVESTING**

**Friday, February 8 • 11:15 am – 6:15 pm**

**Natural Resource Investment Opportunities and Tax Advantages**

With geopolitical risk and uncertainty rising, plus a growing worldwide water crisis, natural resource investing offers some of the best investment opportunities in the near future. The MoneyShow Orlando special track on the tax benefits of energy-exploration and natural-resource investing will introduce you to the top experts, cutting-edge strategies, and the most innovative firms that will help you take advantage of this tremendous opportunity.

GLOBAL MACRO OUTLOOK

ALMELIA BOURDEAU
Founder & CEO, Market Compass LLC

Global macro is an exciting trading strategy. With the Fed tightening and Brexit negotiation deadlines approaching, markets are in an adjustment phase. Amelia Bourdeau will discuss the market environment and look at event risk, which provides actionable trading opportunities. Identification of global market themes driving the trading landscape is key to initiating trades and managing risk. She will provide examples of how the big hedge funds and bank execution traders examine the markets. She typically expresses trades through foreign exchange and that will be the focus of this presentation.

HOW TO SWING TRADE SUCCESSFULLY WITH TONI TURNER

TONI TURNER
Author, Short-Term Trading in the New Stock Market

With 20 years’ experience both in trading and teaching short-term trading, Toni Turner will show you her step-by-step method for approaching the market and executing her swing trading strategies. You will discover what the highest-potential price patterns look like and how to search for them. You will also learn what to look for in a set-up and best entry technique. Toni will explain her risk/reward technique and show you how to manage your risk to minimize your losses and maximize your profits.

GETTING STARTED WITH STOCK OPTIONS

ALAN ELLMAN
President, The Blue Collar Investor Corp.

Achieving the highest possible returns is the goal of every investor. For covered-call writing, this means mastering the three required skills of stock selection, option selection, and position management. You must select the strike price and expiration date of your options, and how you go about determining these choices, will have a major impact on your overall returns. This presentation will cover the rationale of option selection with real-life examples including calculations to show the pros and cons of various strike prices.

END-OF-DAY BULL AND BEAR TRAPS

AL BROOKS, MD
Author, Trading Price Action

Based on his 30+ years as a trader, Al Brooks will discuss many examples of common bull and bear traps that take place late in the day. A break out or failed breakout late in the day usually creates a swing that often lasts until the close. Al will talk about setups, entries, and trade management.

THE THREE FORCES YOU MUST UNDERSTAND TO SUCCESSFULLY TRADE THE US MARKETS IN 2019

TODD SALAMONE
Senior Vice President Schaeffer’s Investment Research, Inc.

Did you know you can buy options to reduce risk and potentially enhance your portfolio returns, whether you’re using options to speculate or hedge? In today’s environment, where we’re constantly bombarded with a multitude of risks that could negatively impact stocks, it’s an ideal time to utilize the flexibility of options. But the myriad of “options” available can be quite confusing, whether you’re new to the market or have some experience—how do you pick the right strike price? What’s the best way to play events? How much should you allocate to each trade? What expiration, or time frame, should you play? Join Todd Salamone, who has 25 years of experience in buying options, as he walks you through these concepts and more.

Amazing show as always! The Omni Resort is second to none, and the speakers and MoneyShow staff really were topnotch. Look forward to attending next year!

**Dividend Growth: The “Stealth Growth” Strategy**
*Thursday, February 7 • 9:30 am – 12:30 pm*
Dividends are often associated with slow-growth companies and defensive-minded investing. Yet this overlooks a couple of key facts. Dividends and dividend growth have historically accounted for the lion’s share of stock total returns. Moreover, companies that are rapidly growing their payouts can be found in some of the fastest-growing sectors of the economy.

This gives rise to a largely underutilized strategy: “Stealth growth” investing, which centers around buying quality stocks with a penchant for dividend growth. Come discover how (and why) it works, find out which sectors offer the most promising dividend growth, and scan the entire equity universe to uncover the best values. Courtesy of these true industry-leading experts, you’ll take home specific stock ideas—including in tech and other growth sectors—each one set up to produce safe growth in ways that may have never even made your radar before!

**The Strategy That Has ALWAYS Worked**
*Friday, February 8 • 12:00 pm – 3:00 pm*
This strategy beat the market in the 50s; trounced the market in the 60s; obliterated the market in the 70s; crushed the market in the 80s; pummeled the market in the 90s; smashed the market in the 2000s; and massively outperformed the market in the 2010s. Now...with all of this outperformance, you might think this is a high-risk strategy...and you would be wrong! This strategy is far lower risk than buy-and-hold. And, not one time, not in all the massive bear markets over the past 90 years, did this strategy have any major losses...not once.

**Mike Turner, president, Turner Capital Investments**, will show you how this strategy works and how to do it without spending a penny on high-end software or spending huge amounts on financial consultants. This Master Class is the reason you are attending this year’s The MoneyShow Orlando. Come be prepared to get your socks completely knocked off!

**Combining the Best Technical Analysis Tools to Improve Seasonal Trades**
*Thursday, February 7 • 10:00 am – 1:00 pm*
Veteran trader John Person will teach you why you need to learn how and why some of the best technical trading tools, available in some of the most popular trading platforms such as thinkorswim and TradeStation, have been modified for today’s computerized trading environment. Investors and traders have learned in the last year that markets are a bit more complex than they once were. In this session, you will learn how John searches for trade setups using seasonal studies combined with the best confirming yet non-correlated indicators.

He will also give detailed examples and rules to follow as to which trading strategies can best be employed from a leverage, risk, and profitability perspective. This event promises to give great insights that all investors can take advantage of including day, swing, and position traders, especially for those who employ option strategies.

**Topics that he will cover include:**
- Defining how and when to best use seasonal analysis
- How to modify price-based indicators on your trading platform
- Entry and exit setting techniques
- Three top option strategies for directional and non-directional trades

If you’ve ever wanted to learn practical trading techniques, then this class is definitely for you!

**Trend Trading Like a Pro**
*Friday, February 8 • 12:15 pm – 3:15 pm*
Everybody loves to talk about trading trends, but few people can do it well. That’s because trend trading requires a proper mindset, and more importantly, a well-designed structure that can be applied across all markets and timeframes.

Join **Boris Schlossberg, co-founder of BKForex.com**, as he introduces you to his FlowRider system. Designed originally for the forex market, FlowRider can be used to trade futures and stocks as well. It's particularly effective on the indices like the Dow, Nasdaq, and the S&P500. The FlowRider system can be traded both manually and algorithmically on anything from one-minute to a one-month chart and is suitable for day traders, swing traders, and even longer-term investors. Its purpose is to position the trader right at the start of a trend to capitalize on the most explosive moves in the market.

Please join Boris for this hands-on Master Class as he walks you step by step through every facet of trend trading with exact entry, exit, and trade management rules, so that you can ride the flow to profit!

Fundamental & Technical Analysis of the Energy Markets*

NEW
Friday, February 8 • 3:30 pm – 6:30 pm

The United States is a leader in the production and supply of energy and is one of the world's largest energy consumers. Increasingly innovative and cost-effective techniques have enabled US producers to remain competitive even during times of low crude oil and natural gas prices. Higher commodity prices will increase access to capital markets across the board for the US energy sector, allowing companies to restructure their debt and bolster their balance sheets. With increased global demand and the United States being at the cusp of an industrial renaissance, are we now positioned to attain "energy dominance"?

Stephen Schork, editor, The Schork Report, will answer this question and more in this ground-breaking Master Class. He will cover:

**OPEC's Staying Power**
- Impact of Oil Production Cuts
- Geopolitics and Fear Premiums
- South America Turns Right?

**Crude Oil**
- Export Caviar, Import Tuna Fish
- Favorable Tax Reforms

**Natural Gas**
- Supply Glut
- LNG/Pipeline Exports
- US Pipeline Capacity
- Commercial and Industrial Demand

**Balancing Act**
- Supply:Demand
- Importance of Hedging

Experience a unique opportunity to learn all about energy investing from an insider's point of view.

**Successful Trading from Start to Finish: New Tools, New Thinking***

NEW
Friday, February 8 • 3:45 pm – 6:45 pm

Why is it that some traders can handle adverse price movement, while others get sick to their stomachs? How does one get back into the groove after they've suffered a string of losses? Why do some lose confidence that their trade will keep working, bailing out even as the trade continues to move in the right direction?

These questions, and many more, will be answered as Rick Bensignor, former Morgan Stanley chief market strategist and one of Wall Street's most sought-after names on both the academic and practical market application of behavioral finance theory, walks you through his successful track record of how to create a profitable investment, how to stay in that profitable investment, and how to know when it's time to simply walk away.

Rick will introduce you to:
- The special slew of indicators he uses (that helped produce a 75% return on invested capital for his clients in 2017)
- How he manages to keep drawdown to a minimum (his 39 newsletter recommendations last year averaged but a 0.79% maximum daily closing drawdown across the life of the trade (typically several weeks to many months)
- What behavioral finance is and how to best incorporate it into your trading (and your life)
- His best tips on trading psychology that you can implement into your own investment style

Day Trader’s Guide to Profiting in Any Market* NEW

Saturday, February 9 • 8:30 am – 11:30 am

Harry Boxer is founder of TheTechTrader.com, a live trading room featuring his trade alerts and technical market analysis. A 50-year veteran technical analyst and stock picker, he is author of Profitable Day & Swing Trading, named by Stock Trader's Almanac as the “2015 Best Investment Book of the Year.”

Harry will demonstrate how to:

• **Build your focus list for the session:** This includes analyzing patterns from the previous day, as well as pre-market news and price/volume percent gainers.

• **Play opening gaps and early session patterns:** With the vast majority of intraday day-tradable patterns initiated at or very close to the opening of trading, Harry will show you how to closely analyze the first 15-30 minutes of pattern and related volume development to recognize what stocks may be excellent day trades or at least strong early scalp plays.

• **Draw trendlines, set targets and stops:** Harry will show you how he continuously draws and monitors/updates throughout the session his trend lines, channels, and important developing continuation patterns such as flags, pennants, coils, in addition to adding support and resistance lines for targeting purposes.

• **Determine your time horizon and when to swing trade:** Harry will discuss the channel patterns and charting time frames in determining when to extend to a swing, plus his key rules for swing traders.

For anyone who wants to tap into acclaimed trader Harry Boxer’s winning tactics, this session has it all!

Option Strategies That Work in Practice*
Saturday, February 9 • 1:45 pm – 4:45 pm
Some option strategies are so complicated that they don’t really work in practice. In this session, Larry McMillan, editor and publisher of The Options Strategist, will look at option strategies that DO work. Ones that have been making money consistently for some time, and ones geared to make money in a particular environment.

Strategies Which Will Be Encompassed in This Master Class:

• Speculative strategies: use of put-call ratios, use of predictive tools, including seasonal patterns, option-based indicators
• Non-directional strategies: selling options, neutral straddle buying, including hedged strategies using $VIX and $SPX derivatives in the same position
• Specific functions, such as protecting a portfolio of stocks with index or volatility options
• Finally, this session will also stress strategies to avoid, or at least to be used with caution: bull and bear spreads, for example, which are often used too frequently.
